

# **Façade Improvement Grant (FIG) Program: *Guidelines***

---

## **Purpose**

The Façade Improvement Grant (FIG) Program was created for the purpose of encouraging private investment in the restoration of building facades in downtown Bessemer City. This program encourages architecturally appropriate improvements to commercial building fronts. The grant also encourages and requires renovations that follow the Secretary of the Interior's Standards for rehabilitation for historic structures.

Improving the physical appearance of downtown buildings will promote economic growth by attracting and retaining businesses, enticing customers, and halting property value deterioration in the district. In addition, this program will help preserve downtown's unique physical resources and attributes.

## **Funding Cycle**

Due to the competitive nature of the Façade Improvement Grant (FIG) Program, there will be two (2) funding cycles per year. Applicants are required to submit applications three (3) weeks prior to the grant award dates. During these three (3) weeks, the applications will be reviewed and evaluated with the scoring sheet. City staff will advise you on the funding schedule.

## **Goals**

- To promote façade rehabilitation of commercial and mixed use buildings in the downtown area
- To preserve special characteristics of this area by helping owners make quality building improvements that foster a sense of place and overall consistent image for the area.
- To compliment public/private revitalization efforts, such as sidewalk and landscaping improvements.
- To promote an attractive environment for new investment and business activity.

## **Eligibility**

- The building must be located in the Central Business District (CBD) and use for or intended for commercial purposes.
- The applicant may be either the owner or a tenant of the building (tenant will need to have written permission from owner)
- Final determination of eligibility will be made by recommendation of the Façade Review Committee and final approve from the City.

## **Grants**

- The City will consider applications for grants of up to fifty (50%) percent of eligible costs.
- The maximum grant shall be \$5,000.
- The maximum amount will be determined by the grant formula.
- Matching grant payments will be made in the form of reimbursement upon completion of the project in a manner acceptable to the City.
- Applicant is limited to the maximum amount allowed (\$5,000) every three (3) years.
- The City reserves the right to amend and/or discontinue the grant at their sole discretion.

Please direct all questions or concerns to the Department of Economic Development  
(704) 729-6505 or [jross@bessemerncity.com](mailto:jross@bessemerncity.com)

## Formula

- Grants are awarded on a 50/50 matching basis. Eligible grant allocation match (EGAM) will be determined by the property's linear footage to main roads, i.e. state roads and/or other roads determined by the City as eligible for this grant.
- Property's may receive a matching amount up to \$100 per linear foot
- FORMULA: Linear Footage X \$100 = Eligible Grant Allocation Match (EGAM)
- EXAMPLE: 25 Linear Feet X \$100 = \$2,500 Match; 38 Linear Feet X \$100 = \$3,800 Match; 50 Linear Feet X \$100 = \$5,000 Match

## Requirements

- The Secretary of the Interior's Standards for Rehabilitation and the Supplementary Requirements for Development in the Central Business District (CBD) [as found in Chapter 6 Section 6.3 of the Unified Development Ordinance (UDO)] will be used as guidelines for awarding project reimbursements.
- Rehabilitation of a structure in the Central Business District (CBD) should be considered a contemporary solution, which respects the architectural and historical integrity of the entire building while retaining those elements that enhance the building.
- All rehabilitation work must comply with all City codes, ordinances, and policies, including, but not limited to building code requirements, local ordinances, (including historic district guidelines, where applicable) and established design standards for the designated area.
- All projects must be completed within one (1) year of the date that the grant is awarded. Any extension beyond one (1) year must be requested by the owner and approved by the City or the funds may be rescinded.
- Grants may only be used to finance exterior improvements.
- The City may request a minimum of two (2) quotes for each project element.
- Upon completion, the improvements will be inspected for determination of compliance as submitted in the application.

## Secretary of the Interior's Standards for Rehabilitation

The U.S. Department of the Interior developed ten national standards that address the rehabilitation of historic buildings. The standards describe a hierarchy of appropriate preservation treatments, which encourages ongoing maintenance and protection of historic properties to minimize the need for more substantial repairs and, in turn, values repair over replacement of historic features.

### The 10 Standards are as follows:

- **1.** A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
- **2.** The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.
- **3.** Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
- **4.** Changes to a property that have acquired historic significance in their own right will be retained and preserved.
- **5.** Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.

Please direct all questions or concerns to the Department of Economic Development  
(704) 729-6505 or [jross@bessemerncity.com](mailto:jross@bessemerncity.com)

- **6.** Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
- **7.** Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
- **8.** Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
- **9.** New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work will be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.
- **10.** New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

### **Eligible Costs**

Eligible costs can include but are not limited to the following:

- Paint removal from brick surfaces by chemical and/or water wash methods only;
- Tuck-pointing of brick; repair/replacement of stucco, tile, stone elements.
- The removal of false fronts (such as aluminum panels).
- Repair or replacement of windows, doors, and cornices.
- Repair or replacement of façade materials.
- New, more appropriate signage.
- New or replacement of awnings of appropriate material and design.
- Exterior painting (if appropriate).
- Restoration of historic features.
- Redesign and reconstruction of store fronts (if appropriate).
- OTHER

### **Ineligible Costs**

Ineligible Costs can include but are not limited to the following:

- Interior rehabilitation or decoration.
- Any fees from required permits.
